

# T. ALESSANDRO

TARYN ALESSANDRO FINE ART LLC.

Already acknowledged as a Contemporary Master by her mid-20's, mixed media painter, Taryn Alessandro has gained an impressive amount of exposure & recognition due to her innovative use of upcycled materials & avant-garde approach to traditional fine art.

Classical style painting is uniquely contemporized when harmonized with Taryn's textural layers of found & upcycled materials.

Aluminum cans, sand, fabrics, glass, cardboard, jewelry, paper, etc. filter light reflections created by precious metals, iridescence, & resin for an illuminating experience unlike any other.

*Taryn, classically trained with a BFA from Boston University, has also studied at Lyme Academy of Fine Arts, Decordova Museum School, & in Italy. Currently residing on Maui, island living inspires much of her work.*
